

Denise Bamberg

JUNIOR FULLSTACK DEVELOPER

SUMMARY:

I recently graduated from Spiced Academy, as a Fullstack Developer. In several projects (Petition, Imageboard, Social Network) we prove, what we've learned so far. Now I want to show the world my new skills, sharpen and improve the ones I have, learn some new ones and contribute to the companies.

TECHNICAL SKILLS:

PROGRAMMING LANGUAGES

- Typescript
- Javascript
- NodeJS
- PostgreSQL

APPLICATIONS

- Visual Studio Code
- TablePlus

FRAMEWORKS

- React
- Redux
- VueJS
- Express
- Tailwind
- NextJS

CONTACT:

Mobile: +49 15142877365
Mail: denise.bamberg@web.de
Address: Voltairestr. 11, 10179
Berlin

PROJECTS:

RECIPE APP

NextJS, Typescript, Tailwind, PostgreSQL

For this final project, I decided to use a new stack of technologies I hadn't worked with before. With this app, you can search for recipes and add new ones. Upcoming features will be a login, saving recipes you like, rate and comment recipes.

SOCIAL NETWORK

React, Javascript, PostgreSQL, SocketIO, Redux

The app contains the basic functionality of a social network. You can log in, reset the password in case you forgot it, search users, make friendship requests and accept requests, check on your friends & chat with other users. I plan to implement a 1:1 chat, edit profile & a posts page.

IMAGEBOARD

React, Javascript, PostgreSQL, AWS-S3

You can upload images here, which will be displayed first. As soon as you click on the image, a popup will open with the title and description, as well as the option to see already made comments and leave new comments on the image.

PETITION

VueJS, Javascript, PostgreSQL

Sign a petition and check who else signed along with you. If given search by age, city and favorite homepage. Edit your profile or delete your signature and sign again if you want to.

PROFESSIONAL CAREER:

OFFICE MANAGER

Jan 2018 - July 2022

3YOURMIND GmbH, Ahoy! Berlin GmbH, We Are Era GmbH
